

### Weekly Checklist

Try and tick off as many of these activities as you can each week as part of your home learning! Colour in the circles each time you complete the activities.

#### Reading

Aim for 20 minutes per day:

Mon  Tue  Wed  Thur  Fri

#### Spellings/Phonics

Recap and revise these trigraphs – remember a trigraph is three letters that make one sound – **igh** **air**

Mon  Tue  Wed  Thur  Fri

**Writing** - Open this link to help you learn the planets! Which one do you like best? Why?

<https://www.youtube.com/watch?v=F2prtmPEjOc>

Choose a planet to research and write a fact file about – this could be a booklet or a fact poster. Think about what you can tell people about the planet - What does it look like? How big is it? Is it hot? Is it cold?

Mon  Tue  Wed  Thur  Fri

**Physical Activities** - Please see our school website for lovely PE videos for games and activities from our fantastic specialist PE teachers, Abi & Jenny or do some yoga/dance/mindfulness on Cosmic Kids each day:

<https://www.youtube.com/user/CosmicKidsYoga>

Mon  Tue  Wed  Thur  Fri

### Maths Practise

Daily practise – recognising 1 more/less than a number to 20. If you are finding this tricky, use a number line and practise counting forwards and back along it.

Mon  Tue  Wed  Thur  Fri

### Maths Challenge

This week's maths challenge is.... Solve problems using all your knowledge of doubling and halving. How do you know a number is a double? What do you have to do when you double? How are doubling and halving linked? Have a go drawing or writing solutions for these problems...

'If a ladybird had 4 spots on one side and 4 spots on the other, how many does she have in total?'

'Collect 3 leaves outside. Collect 3 more. How many do you have altogether?'

'Draw 8 bottles. Colour half the bottles. How many are blue?'

'April made 6 cupcakes. She ate half of them. How many did she eat?'

### Topic / Understanding the World

Did you know that the sun is a star?!

<https://www.youtube.com/watch?v=ZrS3Ye8p61Y>

Use the above link to learn more about stars and constellations. A constellation is a group of stars that looks like a picture and we have lots in our night sky! Think about what you learnt. Have you seen any constellations in the night sky before? Why not have a go at drawing your own constellation using chalk & star stickers or cut out some from tin foil?

### PSHE

**Feeling grateful** – During this strange time, it can be easy to forget all the good and positive things we have in our lives. Use the links below to help you learn and think about how you can feel grateful.

<https://www.youtube.com/watch?v=T5Umo80x9og>

<https://www.youtube.com/watch?v=JlodsXEvo4U>

Talk to your family or a friend about what you are thankful and grateful for. Draw a picture of the things you think of. Write around it what you can do to feel positive and show you are grateful for the things you have. There is also a story video by Mrs Hutchings of a book called 'Joy' that you can watch too!

Gratitude is one of the sweet shortcuts to finding peace of mind and happiness inside. No matter what is going on outside of us, there's always something we could be grateful for.

### Creative Task

Have a go at making your own planet! Cut a circle shape from paper or card. Use paint brushes, paint bottle tops, salt and experiment using different techniques to create a multi-layered effect.
